PRELUDE® PLUSH

FEATURES & SPECIFICATIONS

THERMALLY BONDED

Manufactured using advanced Thermal bonding process to create fabrics that are dimensionally stable, non fraying, lightweight and easy to install.

DURABLE

Unique to Fronrunner® and Prelude® the nylon and polyester fibre blend used in the production makes it resistant to knocks and abrasions and inherently mildew resistant.

The resilient pile will bound back showing no pressure marks even after hours or days of objects leaning against it.

VELCRO® COMPATIBLE

Fronrunner is Velcro® compatible. A hook monofilament of 8mils or less is recommended.

COMPOSITION

[Melded] Thermally bonded
Polyester & Nylon

TEXTURE

Plush - Velour

ROLL LENGTH/WIDTH

50m x 1.40m

[Other widths available on request, subject to minimum orders]

FABRIC WEIGHT

300 - 340gm/m² +/- 10%

FABRIC THICKNESS

3.0mm +/- 0.5mm
