

DoNuts, © by Dirk Wynants

year of creation / 2004

DoNuts is a surprising table-seating combination. The inflatable seating part carries a polyester table top. When leaning against the highly ergonomic table border, you will experience the comfort of a perfect back-rest. Or when joining the table, there is plenty of space for everybody. Donuts' seating part looks like a huge doughnut with a 2m diameter, allowing at least 6 persons to join the table.

Donuts provides mobility in the garden. You move the table where you wish to use it: on the terrace, on the grass, in the sun or in the shadow ... enjoy the weather, do nuts!
