

# Gargantua, © by Dirk Wynants

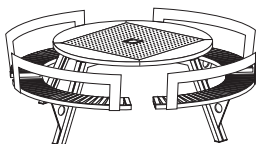

year of creation / 1994

The functionality that characterizes the Gargantua lies in the adjustable benches that can be changed in height depending on social or family circumstance: for adults, or children or as an extension of the table top. Seating for 8–12 people. If one bench is removed, people in wheelchairs can also join the table.

The materials are suitable for outdoor use: hardwood, galvanised and stainless steel.
