Kanvas

## New from Kanvas

Established in 2002 to offer well-designed and affordable feature artwork solutions, **Kanvas** Interior Art continues to stand out from the crowd with the addition of 15 new ranges and an exciting new concept in **Wallbrooch**. Inspired predominantly by elements of flora and fauna (with a modernist slant), the collection also includes our first and very stylish **KanvasKids** range.

**Wallbrooch** assembles shapes that will appeal to children and adults alike. Part artwork, part sculpture, the brooches are formed from a selection of timber veneers, coloured acrylic or mirror finish. It is best described as an *ornamental plaque* designed to complement or reflect certain elements within the **Kanvas** ranges and we are pleased to announce this refreshing expansion to our wall art offering.

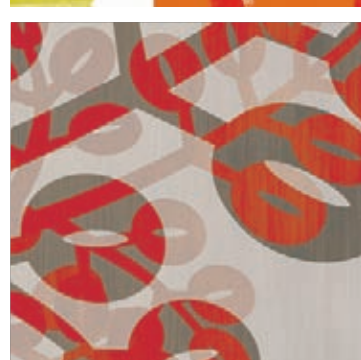

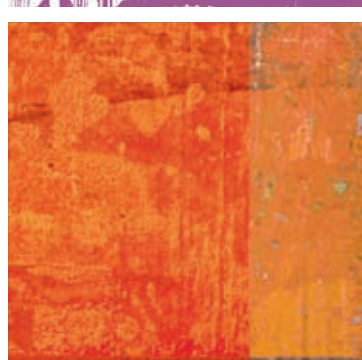

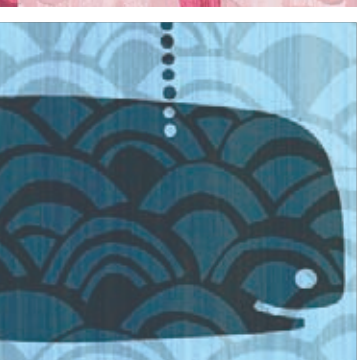

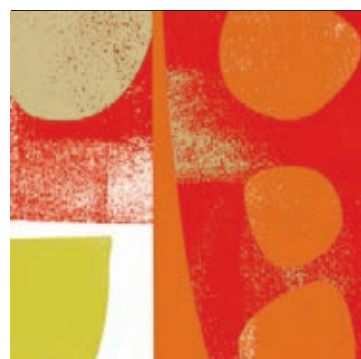

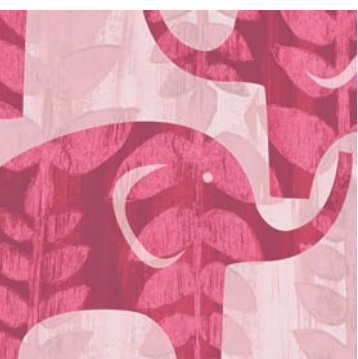

## Choose from the extensive range to achieve the perfect fit

Our experienced creative team is comprised of graphic and interior designers, with both professions aligning to inform the design, colour and texture of the artworks. From here, *you* can take control of the process by choosing the size of the canvas, tweaking the colours or altering the crop of the design. This service is free of charge and we embrace your input to result in the perfect fit for your environment or project. Home or office consultations are available should you rather someone to lead you through from the very beginning, plus we can even look after the installation to see it right through to the end.
