Full Compliance

From a technical perspective Comcork Flooring passes the current commercial standards and in most cases it actually surpasses them.

When you specify or use Comcork Flooring you are not only helping the environment but you can also have peace of mind that it will comply with all the current standards.

The main raw material used in our flooring is cork, which contains millions of cells of trapped air. These tiny air cells are impossible to replicate with other synthetic materials and is what gives Comcork a unique built in competitive advantage.

This unique cell structure means that Comcork Flooring is comfortable, quite underfoot, slip resistant, durable and extremely long lasting.

Current Commercial Standards	Test Result
Green Star Compliant	YES - GECA Certified
VOCs Rating (Volatile Organic Compounds)	0.2mg/m ² /hr - Low
Formaldehyde Emissions	0.001 mg/m ² /hr - Low

Critical Radiant Flux (Compliance to C1.10a)	10.8 kW/m ²
Smoke Development (Compliance to C1.10a)	92%.min
IMO Certified (International Maritime Organisation)	YES
Recycled Content	70%
Made in Australia	YES

How to fill out the "Mat-2 Flooring Calculator"

				Resource Utilisation		Management						Reusability		Product Score (%)	
Type of Flooring	Name of Flooring Supplier	Brief Description of Flooring	Area of Flooring (m ²)	Eco Preferred Content	Durability	EMS?	EMS ISO 14001 Certified?	EMS Includes?				Product Stewardship	Modular		Designed for Disassembly
								Waste Minimisation	Energy	Emissions	Materials Minimisation				
Resilient	Comcork Flooring	Walk Easy CWE1060 3.2mm	800m ²	≈20%	≈15yrs	Yes	No	Yes	Yes	Yes	Yes	No	Yes	≈50yrs	80

Comcork Flooring has been certified by Good Environmental Choice Australia (GECA). They are an independent body that has certified that Comcork Flooring is a manufacturer of sustainable products that are environmentally friendly.

This means that the entire Comcork Flooring product range can now be specified for use in all Green Star rated buildings and will comply with all the standards.

The table listed above is an example of how to fill in the "Mat-2 Calculator" when you use Comcork Flooring on your next project. The Mat-2 Calculator can be found inside the "Office Interiors Tool" on the Green Star website www.gbca.org.au. Simply fill out the calculator as shown above to achieve full points with Comcork Flooring.

If you would like more information on any of the above or if you would like a copy of the licence from GECA please contact your local distributor.
