Pro-tech's Pro-green system

- As used by many of the worlds top professionals
- Exclusive “**no maintenance**” technology introduced to Australia by Pro-tech
- Performs like a grass green
- Pro-tech greens add style and value to any home or commercial venue

“My Pro-tech Green Plays as true as any green we play on around the world.”

Peter O'Malley
PGA Golf Professional

“Putting on my Pro-tech green is very similar to putting on any good professional tournament green, it is excellent for practice.”

Wayne Grady
1990 US PGA Champion

You will find the unique Pro-tech Green System in the homes of many of the world's top professional golfers.

Now you can have one in your own back yard!

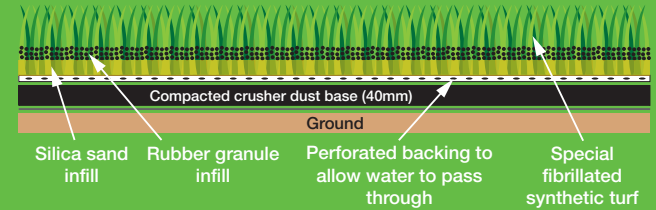

Now you can improve your short game on a green that looks and plays like the real thing - without the maintenance.
