

THE LOGICAL PUTTING GREEN ALTERNATIVE

SYNTHETIC COMMERCIAL AND RESIDENTIAL GREENS

Pro-tech is committed to excellence in all of our products and services, which is why our synthetic putting greens are the first choice for professional golfers like Peter O'Malley, Wayne Grady, Paul Marantz and Paul Sheehan.

"The great thing about the Pro-tech green is that it plays as true as any green we play on around the world, and it requires next to no maintenance to keep it in this condition". Peter O'Malley

IMPROVE YOUR GOLF GAME

Why not take the frustration out of your golf game and simply get better! Ask any professional golfer what their secret to success is and they'll all tell you the same thing – practice, practice, and more practice.

Most golfers, however, are not professionals, and have to fit golf in around their work and family responsibilities, which unfortunately leaves very little time for practice. If you're lucky, you may be able to squeeze a game in on weekends but unless you are taking extra time to practice

your putts, your handicap might refuse to budge in a positive direction. Installing a Pro-tech putting green in your home is your answer to gaining that competitive edge.

HOME ENTERTAINMENT

Pro-tech putting greens make great entertainment features for any residential or commercial property. Perfect for entertaining colleagues, friends and family.

MAINTENANCE FREE

With a Pro-tech putting green, there is virtually no maintenance! Once it's installed, all you have to do is enjoy it.

ADD VALUE TO YOUR PROPERTY

Apart from all the cost and lifestyle benefits of owning a Pro-tech putting green, if ever you decide to sell your house, your Pro-tech green will continue to provide good service as a value adding asset to your property.

Looks and Feels like Real Grass • Ideal for Golf Courses and Driving Ranges • Corporate Applications • Great Entertainment Facility

D.I.Y Modular Greens also available

DIY MODULAR GREENS

For the ultimate portable option, Pro-tech's systems are easily assembled in any indoor or outdoor environment. Set-up and practice whenever and wherever you want! Interlocking teeth ensure proper panel alignment every time and have the look and feel of a real putting surface. Infinite shapes can be created to suit any size or budget by simply arranging the modular panels into suitable configurations.
