

Catifa 46

Design Lievore Altherr Molina

Fresh and sinuous in its design, the Catifa 46 offers an original and assured aesthetic. With a polypropylene shell, in either single tone or two tone, or the unique double curved plywood, the Catifa 46 suits many environments. Complementing the fully upholstered model, is the front face upholstery option, where the texture of fabric or leather on the front contrasts with the high gloss polypropylene of the shells' back.

A mild steel frame finished to bright chrome or powdercoat on the 4 leg and sled models is the perfect solution for any environment. For corporate areas, a variety of swivel and castor bases, finished to chrome, polished aluminium or house powdercoat colours, illustrate the versatility of the Catifa 46. To complete the range a barstool is also available. Accessories available include an upholstered seat-pad, writing tablet, stacking plate, linking device and chair trolley.

Certification

GECA - polypropylene shell with stainless steel, powdercoat or polished aluminium base
ISO 14001

Warranty

5 year structural warranty

Lead time

The Catifa collection has evolved into a complete seating family. With its unmistakable, innovative design, this versatile range adapts beautifully to any application and is ideal for a number of settings including domestic, corporate, hospitality and public. The Catifa 46 collection offers a wide choice of materials and colours. The Catifa shell is made from either double-curved plywood, or polypropylene. Polypropylene barstools are available in either single or two-tone colours. The shell can be upholstered in house leather, fabric or to clients own specification.
