

# CL Linear 90

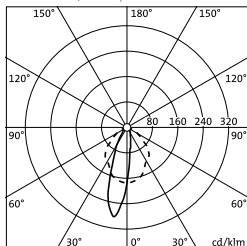

## Ceiling Mounting

- CL Linear 90 Ceiling is an integral component of the CL series facade and path luminaires
- The system for ceiling surface-mounting consists of one functional support and one luminaire head, fixed by an intelligent catch system and wall mount module
- The rectangular housing is constructed of aluminium, powder-coated in Siteco® metallic-grey
- An enclosure of toughened safety glass flush fits to the housing
- The highly precise interplay of reflector and Fresnel optics creates narrow, wide or asymmetrical light distribution
- Prepared for continuous row arrangements and through wiring
