

incognito™

"turning a conventional table
into a compact, stacking element..."

Product Overview

Thank you for choosing **incognito folding** by Thinking Ergonomix. Please read the details within this booklet to ensure that the product is operated correctly and you gain maximum advantages from using an ergonomic table.

incognito folding provides

- An easy to use stacking table
- A top that converts from horizontal to vertical quickly and easily
- A smooth action tilting process
- Space efficient nesting and storage
- A light weight mobile work surface
- A multi-functional mobile work surface
- A multi-functional table for meeting rooms, training facilities and conferencing

Using incognito folding correctly

- **incognito folding** is a dynamic product and must be used in accordance with the manufacturers recommendations to avoid damage or harm
- Before the top is tilted up or down the handle must be fully extended to release the mechanism correctly
- The handle must remain fully extended during the complete tilt process
- When the top is fully tilted to a vertical position, returning the handle to a stored position will 'lock' the top in place for safe movement and storage
- When the top is fully extended to a horizontal position, returning the handle to a stored position will 'lock' the top in place for safe use

Using incognito folding correctly

- For safety and well-being it is advised that no person sits on the table top
- Excessive weight on the edge of the table top may compromise the performance of the folding adaptors
- When the product is in position for use or storage it is recommended that the castors are locked
- All product dimensions - including stacking dimensions - are provided on page two of this booklet
- If damage occurs due to misuse, the warranty will be invalid

Warranty

Thinking Ergonomix Pty Limited ABN 63 095 989 638 of 6A Childs Road, Chipping Norton NSW 2170, warrants its incognito folding range of product(s) to be free from defects in materials and workmanship under normal use for the period of five (5) years from date of shipment by Thinking Ergonomix. This Warranty only applies to incognito folding products used by the original end user in Australia in accordance with instructions published by Thinking Ergonomix.

This Warranty does not cover:

- parts that are subject to normal wear and tear in use, including castors and coated surfaces;
- damage or deterioration due to normal wear and tear;
- damage due to improper installation of the product(s); or
- damage due to improper handling or inappropriate use of the Product(s), or neglect or malicious or deliberate act.

Thinking Ergonomix will repair or replace any defective part during the warranty period. Before a product can be returned to Thinking Ergonomix our customer must determine that the original end user has taken all reasonable steps to ensure that the product has been properly installed and operated in accordance with published operating instructions.

To make a claim under this Warranty our customer must contact Thinking Ergonomix, on (02) 9726 7177, and obtain a Warranty Return Authorization (WRA) in advance of shipment. Thinking Ergonomix will need certain information to process a warranty claim including the purchase details and a description of the product, proof of purchase of the product by the original end user and a contact name, address and telephone number.

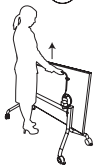

If the product returned is found to have a defect that is covered by this Warranty, Thinking Ergonomix will bear the cost of the freight, otherwise the cost of freight and a reasonable administration charge shall be borne by the customer.

Limitation of Liability

Thinking Ergonomix's liability under this Warranty shall be limited to the original selling price of the product(s) to Thinking Ergonomix's customer. To the extent permitted by law, Thinking Ergonomix and its servants and agents are not liable for any loss or damage (including without limitation loss or damage caused by the negligence of Thinking Ergonomix, or its servants or agents, and incidental and consequential loss or damage) arising from or in connection with the supply of the product(s), including in relation to the use of, or inability to use, the product(s). Thinking Ergonomix is not liable for any loss or damage suffered if Thinking Ergonomix cannot do what it has promised because of events beyond its reasonable control.
