# OPENSPACE

01 | 02

Clarity and simplicity are at the basis of the Open Space Programme. Nothing in the form is just ornament, nothing is superfluous, all is concrete. Every decoration has been intentionally left to allow the shapes to become timeless and lasting values. The basins presented in these pages express the research for timelessness and simplicity: the architectural lines link up to the essential, to the minimal shapes having their origin in the rationalism and in a rigour displayed in each suggestion of "Open Space".

The protagonist of the space, a perfect integration of objects and architecture that emphasises the contemporary spirit of the new collection of basins. Simple designs offering comfortable and functional bathrooms where the desire is to create both unusual and charming items giving life to both the buyer and the home.

**Notes:**

- 1. The dimensions indicated in grey vary on the basis of installation on stand alone shelves
- 2. Any wall basin used as a vanity must adjoin the wall surface
- 3. Recommended inlet/outlet heights need to be used when installing a basin with a shroud
- 4. Additional tap hole options available (some products only) for project quantities at additional cost
- 5. Chrome bottle traps and popup plug and wastes not included
- 6. All dimensions are in millimetres
