

# DONO

Dono demands attention.

A culmination of distinctive good looks, everyday practicality, and, most importantly - sublime comfort.

Dono can be a different sofa from one day to the next. Remove one or two backrests to create a daybed, or add extra backrests to cater for a large group of friends. And what's more, you can create the perfect lounging position by extending the seat base simply by shifting your weight.

As beautiful from behind as it is from the front, Dono is perfectly suited for use in the middle of a room, and is especially at home with open plan living.

Available in a wide range of finishes, fabrics and leathers.
