# Environments that work the way minds work.

Hum is an open plan solution designed for individual focus, collaborative tasks, and everything in between.

Configurations  
For Every  
Workplace.

Organise  
Your Mind.

From One  
To Many.

# Organise Your Mind.

Hum for individual and focused work. Hum understands how people work and what they need to work better. Hum echoes the way our minds organise, coordinate, and collaborate. A better experience for minds at work means better performance.

## Go To Zones.

There is no right or wrong way to work. People need spaces that reflect their own working style. Go To Zones are adaptable multi-use spaces that allow everyone to organise their mind in their own way. Your work space reflects you, and the way you want to work.

### Go To Now.

**Work in the moment.** We all need a place to work. A place for focused concentration, complete absorption. A place where what we need is where we need it.

### Go To Soon.

**Park your thoughts.** But what's next, and where is it? We need places where we can park our thoughts, pick them up again, group them, and prioritise working materials.

### Go To Later.

**Important but not urgent.** Retrieving the right idea at the right time is based on a system of triggers and cues. We need to offload our working memory in places where it can be left a little longer.

#### Personal Space.

The unique convex shape of Hum's height-adjustable work surface defines a natural edge to your individual work area.

#### Box Terrace.

Hum's box terrace creates a private alcove for the work surface. Depending on work types, the box terrace offers more parking space for projects, or more private space for personal items. On top, inside, or underneath, whatever works for you.

#### Elevated Terrace.

Hum's elevated terrace lifts reference items up off the primary work surface. Works available but not in the way. Make it private. Make it public. You choose.

# From One To Many.

Hum for collaborative and interactive work. We work alone, we work together. Hum helps you switch modes, from individual work to teamwork, within the flow, without disruption, without booking a meeting room two floors away and two days away, without the need to move, change places, or shift context. From 1 to we without changing place. From 1 to we without changing pace.

## Designed For Interaction.

Hum is the sound of a team working well, individually and together. Hum is the sound of productivity. Think, engage, focus, connect, make ideas flow.

### See Me Screen.

**Make signals visible.**  
The See Me Screen allows you to see and be seen. It helps filter distractions for better focus, yet connect easily with your closest colleagues. Complete focus, open collaboration, and everything in between.

### Meet Me Space.

**Meetings in the moment.**  
Well timed, meetings in the moment keep work moving forward. The Meet Me Space allows instant and effective meetings without moving. That means more uptime, better flow, and minimal disturbance.

### See Me Screen.

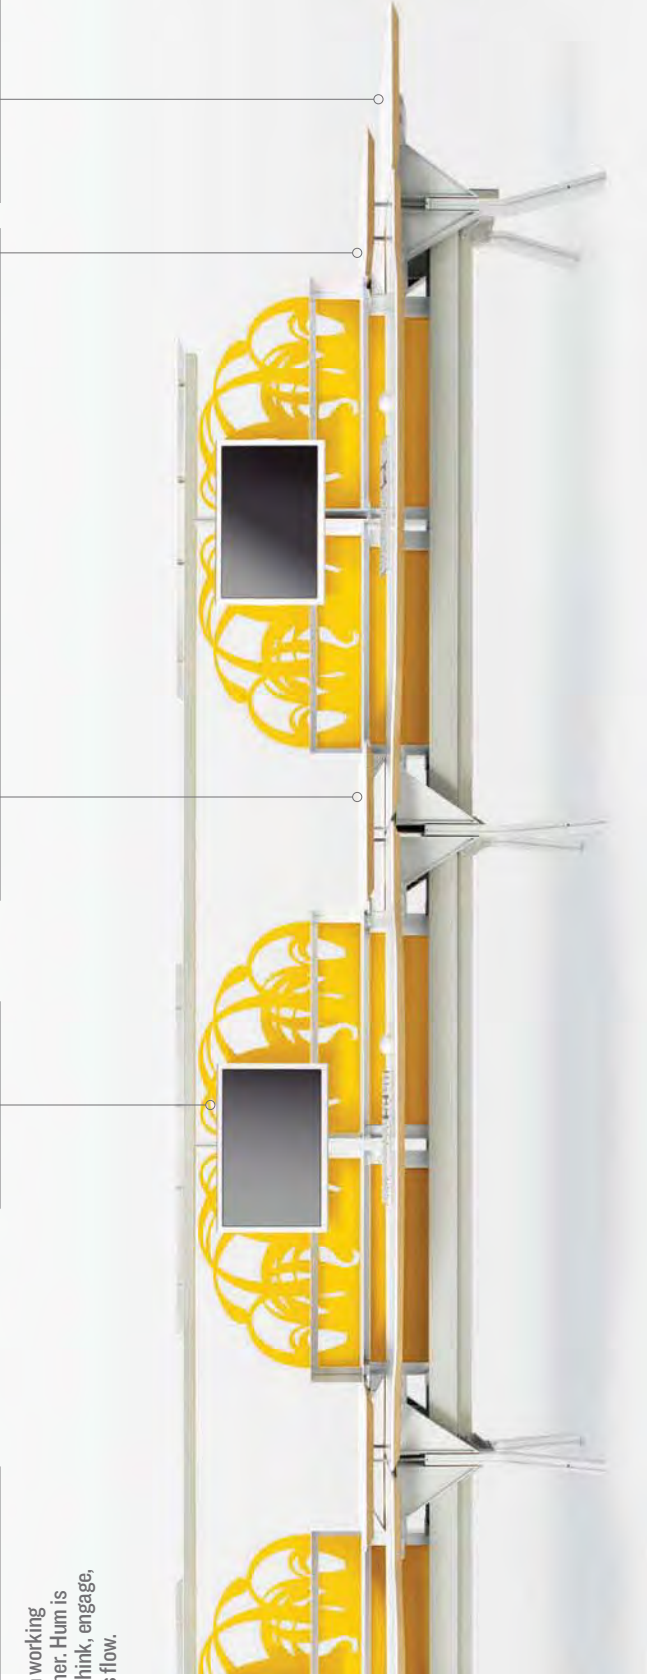

The See Me Screen is designed in response to social signals. It creates a visual boundary that filters distractions without isolation. Its openness enables instant observation and communication with others when our eyes shift focus.

### Meet Me Space.

The Meet Me Space provides a meeting place for the mini meetings that occur throughout the day, reducing the need to leave the work space. Start a chain reaction.

### Touchdown Space.

The Touchdown Space provides an extra meeting place. A perfect spot for a quick chat with a visitor or a regular team catch up. It also provides temporary space for mobile work.

# Configurations For Every Workplace.

Hum for total flexibility. Hum is an open office solution designed for individual focus, collaborative tasks and everything in between. Hum is a flexible and adaptable solution that works in tight spots and out in the open. It's designed for individual needs, for different working teams and for whole organisations.

## 180° - 4 Person

This cluster is great for teams that split their time between collaboration and individual work. There is plenty of space to interact with team members, while the See Me Screens allow you to filter distractions and focus on the task at hand.

### Specifications

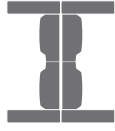

180° Personal Spaces
Meet Me Spaces - Central & End
Touchdown Spaces
Box Terraces
Elevated Terraces
See Me Screens - Flax

## 180° - 4 Person + Returns

This cluster is great for teams that spend most of their time focusing on individual tasks and occasionally host others at their desk. **Pinable Central Screens** block visual distractions and offer ample display space. Place your work materials or personal belongings on terraces, returns, or in **TRAFFIC** storage units.

Specifications

Returns
Box Terraces
Elevated Terrace
Central Screens - Full Height
TRAFFIC Team Store

## 180° - 6 Person

This cluster is great for teams that spend most of their time actively working together. Low Central Screens open sightlines to encourage team awareness and interaction. Meet Me Spaces are great for interacting without disrupting the flow of work. Touchdown and Personal Spaces are perfect for hosting other office visitors.

### Specifications

180° Personal Spaces
Meet Me Spaces - Central & End Terraces
Central Screens - Low Height

## 120° – 3 Person

For teams that need to spend time focusing on individual tasks but also need to occasionally interact with their team. The 120° shape allows the user to keep everything within reach and focus on the task at hand. See Me Screens filter distractions, while Touchdown Spaces are a great place to meet.

### Specifications

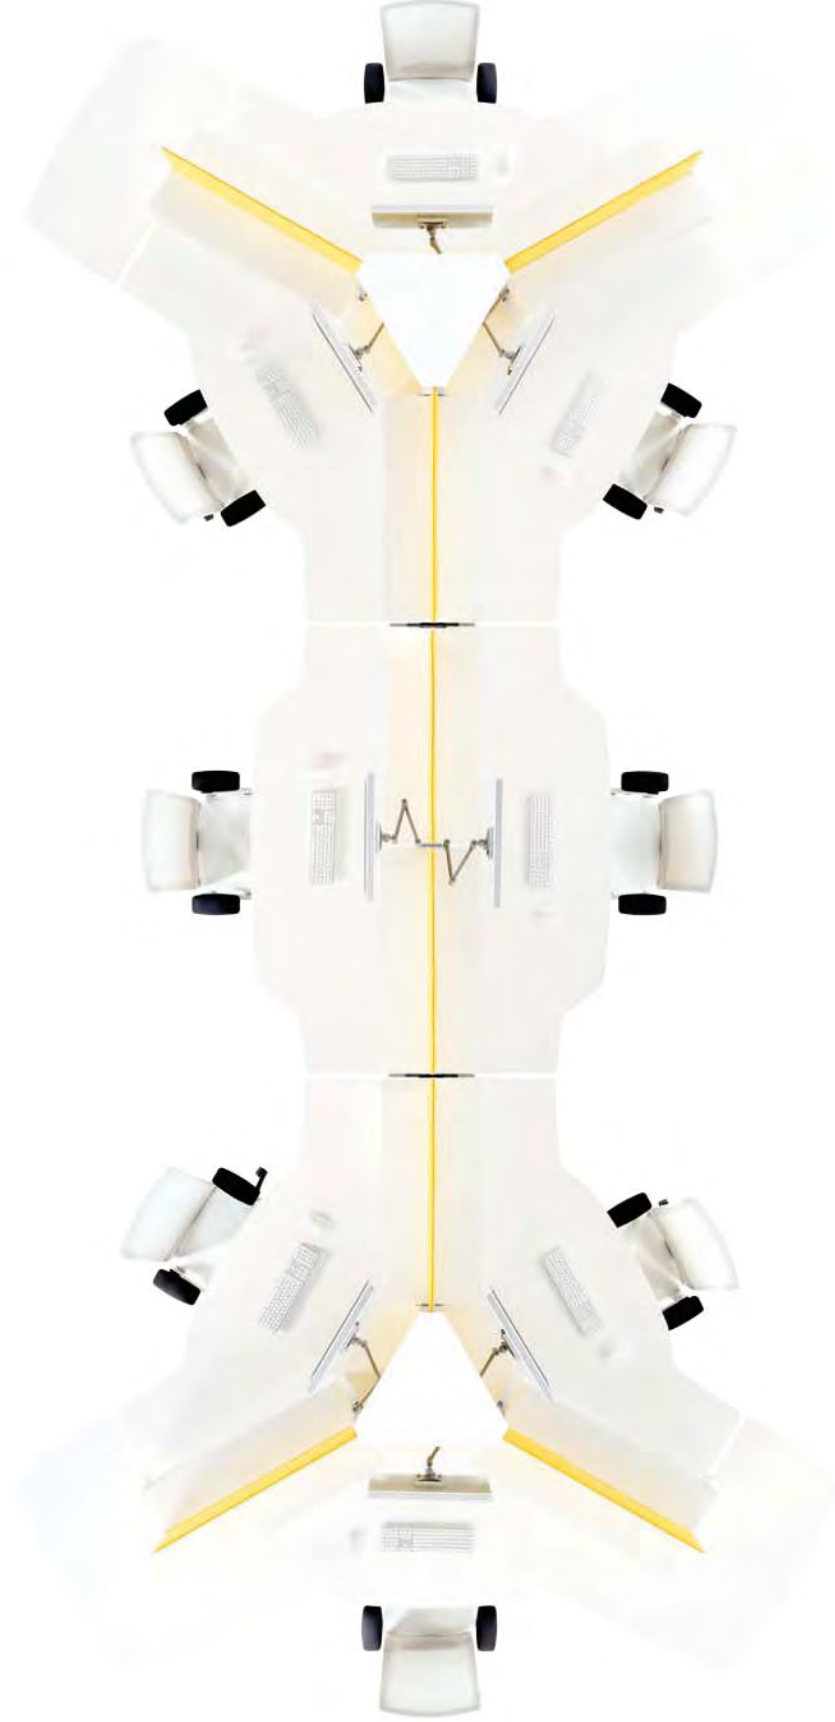

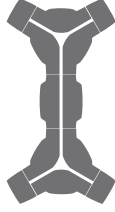

- 120° Personal Spaces
- Touchdown Spaces
- Box Terraces
- Elevated Terrace
- See Me Screens - Leaf

## 120°/180° - 8 Person Cluster

This cluster is great for larger teams where everyone needs something slightly different. Personal Spaces, terraces, screens, and accessories can all be selected to suit personal preferences. Mid Height Central Screens block visual distractions without confining the work space. Use the Touchdown and Personal Spaces to conveniently meet with others.
