PEBBLE

Features

Pebble is a superb seating option for a multitude of informal meeting spaces or corporate breakout areas where people may come together for only a brief period to chat; to have a drink, or just rest a while. This comfortable design allows for user interactivity as it can be nested with other 'Pebbles', arranged in a scattered format, or even used individually as a stand-alone piece.

Finishes

Legs are finished in a silver polyester powder coating as standard with clear plastic feet. Pebble can be upholstered in a wide range of contract quality fabrics or leather, but these require a high degree of stretch.

Design: Allermuir Design Team

Part of the Allermuir Design Team, Georgina Moss graduated from Nottingham Trent University, where she studied Furniture and Related Product Design. She has worked on a number of soft seating concepts for both the Senator and Allermuir collections with Pebble being the first to go into production for Allermuir.
